Opn

Boost Your Business with a Reliable Payments Partner

Opn Payments is an all-in-one payment solution that enables secure and easy ways for you to accept, process, and disburse payments. We help you reach more buyers and drive sales.

Company Profile

Opn, rebranded from SYNQA, is a company founded in 2013 with expertise in Asia—specializing in online payment, blockchain technology for fintech applications, and digital transformation solutions under its vision of enabling access to the digital economy for everyone.

Expanding on that vision, Opn Payments (formerly Omise) now offers merchants one-stop online payment solutions to accept payments, send payouts, and protect revenue from fraud.

Opn Payments enables businesses and enterprises to redefine the customer experience with solutions and capabilities that are built for a global scale.

Established: June 2013

Getting Started

Sign up for a free account today. You can test our APIs, play around and see how things work before making a decision.

Opn Payments is the easiest way for your business to accept, process and disburse payments.

Live account

1. Register for a free account at www.omise.co/signup

2. Once you have registered, you'll have access to the test dashboard where you can test charges, create refunds, make API calls, etc. You can find test data at www.omise.co/api-testing (Please note that this is only a test environment and no actual transactions occur).

3. To receive actual payments from your customers, you will have to register for a live account. Begin by clicking on 'Live dashboard' on the top left corner of your dashboard.

4. You will be required to submit documents for our team to review. There are 5 sections of data and documents for you to submit. After you complete each section, a green check mark will appear, and once all sections are complete, a submit button will be available for you to click. This step can be done online and the reviewing process generally takes around 15 business days.

5. The documents required vary depending on business type. Please note that our KYC team may reach out to you via email if any additional documents are required.

Integration

1. Opn Payments provides development libraries for all major programming languages, plugins, and mobile development:
    → Libraries - www.omise.co/libraries
    → Plugins - www.omise.co/plugins

2. Your integration can be developed and tested using your own test keys which can be found on the test dashboard. To process any live transactions, you'll need to switch to your live keys which can be found on your live dashboard.

Required Documents

Some business types require additional documents to be submitted for the review process. Follow the link provided and check whether this applies to your business.

All documents must be signed by the authorized director(s) and marked "certified true copy" with company seal affixed.
